

# Traveling Aquarium – The Fishmobile

Phillips Wharf Environmental Center Brings the Chesapeake to Pre-K – 5<sup>th</sup> Grade Students

Imagine comparing your arm span to an osprey's wingspan, or seeing the differences between a turtle and a terrapin, or touching a horseshoe crab for the first time.

With 13 estuarine tanks, two touch tanks, and interactive displays and exhibits, Phillips Wharf brings the Chesapeake Bay to you for an unforgettable experience.

## Explore the Chesapeake at your Classroom, Camp, or Private Event

Bring the Chesapeake Bay to your classroom, summer camp, or private event, with Phillips Wharf Environmental Center's Fishmobile.

This traveling aquarium provides students and guests with hands-on learning experiences for all ages that help us better understand the creatures and science of the Chesapeake Bay.

## Fun for All Ages!

Step inside the Fishmobile to explore an oyster reef tank with blennies, gobies, toadfish, and grass shrimp.

Other animals include the Chesapeake's diamondback terrapin, horseshoe crab, northern pufferfish, lined seahorse, American eel, flounder, snapping turtle, blue crab, spider crab, and more.

## But Wait! There's More! We Bring Educational Programs to Your Classroom

Beyond our Fishmobile, Phillips Wharf also brings customized, age-appropriate educational programs to your school classroom.

Kindergarten – 5th grade students learn about the critters of the Chesapeake Bay.

6<sup>th</sup> – 12<sup>th</sup> grade students learn the science behind oyster restoration, aquaculture, and nurseries by utilizing a simulated oyster set.

## Book Now!

For more information about the Fishmobile and our separate Classroom Programs, please email [fishmobile@phillipswharf.org](mailto:fishmobile@phillipswharf.org) or call 410-886-9200. *The Fishmobile schedule fills early, so please reserve today!*
